

## Getting ISM GO on Your Mobile Device

While using our ISM platform from your phone or tablet, ISM GO will not appear as a blue tab on the side of the screen like it would if you were on a desktop computer.

In order to access ISM GO from your phone or tablet you will need to download the ISM GO App. This App is available in the App Store for both Android and Apple users.

Search ISM GO in the App Store of your mobile device and download. Once the download is complete, when you open up the app you will be prompted to login with your username and password. It will also ask for our site information: <https://aiexcellence.net>

This App is only used for the ISM GO portion of the site. The rest of the ISM website can still be accessed through your phone or tablet's web browser.
